

Center Backgrounder

The Montessori School of Silicon Valley has opened the Cantera Location in Georgetown, TX. We are proud to bring our Montessori programs to new families. This new location offers an exclusively authentic Montessori education to children ages 0-6 years old. Nestled in an idyllic location, we look forward to helping children here thrive in their full potential.

Founding

Mike Harding and Colleen Noll, longtime leaders in the world of Montessori education, partnered with Austin-natives Trey and Joy Simonton to bring authentic Montessori education to the greater Austin area.

Together, they sought to bring a new level of Montessori education to Georgetown. A place where they could train a new generation of Montessori educators and bring new opportunities for children to thrive with an authentic experience. Together with MSOSV and Sage Montessori Teacher Education Institute, they developed a solution to bring fully implemented Montessori education to more families.

Location

Cantera Montessori is located on a lovely estate house nestled in two beautiful acres, convenient to families from local neighborhoods. Perfect as a learning environment for young minds, it features large spacious classrooms for children to have the space they need to learn and grow, alongside a beautiful outdoor space for children to run and play in a peaceful, natural environment.
